

AGASH MAHENDRAN

Bengaluru, Karnataka, India | +(91) 9442584761 | agashmahendran@gmail.com | LinkedIn | Github

Professional Summary

Senior Software Developer with 4 years of experience building scalable, secure, event-driven microservices on Java 17+, Spring Boot, Kafka and AWS. Built and operated services on a connected-vehicle and IoT platform supporting 1L+ devices, with mTLS-secured service-to-service communication, OTA update workflows. Strong in distributed systems design, API performance, CI/CD and DevSecOps, and mentoring through code reviews. Experienced using AI tooling to speed up delivery.

Technical Skills

Languages: Java (8/11/17/21), SQL, Python, React JS

Tools: STS, IntelliJ, VS Code, Cursor, Quarkus, GitHub Copilot, Postman, JIRA, Git, Maven

Analytics & AI: AWS Glue, Athena, QuickSight, Apache Superset, Spring AI, RAG, AWS Bedrock

Cloud & DevOps: AWS, Docker, Kubernetes, Jenkins, Terraform, Ansible, CI/CD, Prometheus, Grafana

Messaging: Kafka, MQTT, Protocol Buffers, JSON, XML, REST, SOAP, gRPC, TCP, TLS/mTLS, HTTP/HTTPS

Frameworks: Spring Boot, Spring MVC, Spring Security, Hibernate, REST APIs, Microservices, JPA, Maven

Databases: MySQL, PostgreSQL, TimescaleDB, Timestream, MongoDB, Cassandra, Redis, DynamoDB, S3

Security: Spring Security, OAuth2/JWT, RBAC, Multi-tenant data isolation, AWS IAM and KMS, OWASP Top 10

Architecture: Linux, Networking, Microservices, HLD/LLD, Design Patterns, Event-Driven, Distributed Systems

Experience

Tata Elxsi

Mar 2025 – Jun 2026

Senior Software Developer – Java, Spring Boot, Microservices, AWS, SaaS

Bangalore, India

- Designed and delivered scalable Java Spring Boot microservices for enterprise client platforms, improving service scalability by **35%** and reducing release turnaround time by **25%**.
- Built and optimized **15+** REST APIs for mobile/web applications, reducing average response latency by **30%**, improving scalability, accelerating partner integrations, and optimizing SQL-backed data access.
- Developed real-time simulation tools that reduce testing effort by **60%**.
- Built an AWS Glue pipeline that ingests data from S3, RDS, IoT Core, DynamoDB and Cognito, transforms it with Spark ETL and loads it into Timescale DB, with Apache Superset dashboards on top for visualization.
- Led engineering quality initiatives using JUnit testing, AWS Inspector, SonarQube, Trivy, GitLeaks, and FossID, reducing critical vulnerabilities by **95%**, strengthening CI pipelines, and improving release readiness.
- Communicated effectively with product, QA, and engineering teams to deliver on-time releases while enforcing secure coding and quality standards.

Tata Elxsi

Feb 2023 – Feb 2025

Software Developer – Java, Spring Boot, Microservices, CICD

Bangalore India

- Developed backend services for automotive telematics platform using Java, Spring Boot, Python, AWS, and SQL, supporting **1L+** connected devices across production environments with high availability.
- Implemented OTA update integrations using secure backend workflows, improving deployment efficiency by **40%**, and enhancing platform interoperability.
- Automated CI/CD workflows using Jenkins, Docker, and Git, reducing deployment effort by **50%** and increasing release frequency.
- Built internal AI chatbot and analytics dashboard during innovation initiatives, cutting manual support effort by **40%**.

Projects

- RAG Knowledge Assistant** (Spring AI, Vector Store, LLM): Built a retrieval-augmented Q&A service that chunks, embeds and retrieves documents, returning answers grounded in source content through REST APIs.
- Dynamic Dashboard Generator** (AWS Bedrock): Built a tool that turns natural-language requests into queries and chart configurations rendered as dashboards, with read-only and tenant-scoped guardrails.
- Serverless Analytics Pipeline** (S3, Glue, Athena, QuickSight): Built a data-lake pipeline converting raw data to partitioned Parquet via Glue, queried through Athena and visualized in QuickSight, with IAM least-privilege access.

Education

Anna University, Tiruchirappalli

Aug 2018 – May 2022

B.E. Computer Science and Engineering

Certifications

- Java Spring Boot Microservices Certification
- Core Java Certification

Achievements

- Stellar Contribution Award for AWS Marketplace integration and delivery excellence.
- Two Extra Mile Awards for ownership, innovation, and client impact.
